WASHINGTON, Oct. 9.—A quick barking command from Vice-President Marshall at the conclusion late today of a dramatic appeal by Senators Walsh, Democrat, of Massachusetts, for a league of nations that would do justice to oppressed nations of, the world and for the reservations to the pending league covenant, broke up in its very beginning a demonstration that threatened for a moment to sweep through the Senate galleries. For more than an hour senators and visitors had listened intently to the address, and as Senator Walsh laid down the last page of his manuscript, and with arms raised high, pleaded against approval of the Shantung settlement, and "the dangers iurking in Article X." of the league covenant, a faint ripple of applause was instantly followed by a more pronounced outburst.

followed by a more pronounced outburst.

But it was as quickly subdued. The
strident voice of the Vice-President
was heard above the rising din.
"Remove from the galleries those
who have violated the rules of the
Senate." the Vice-President shouted,
at which gallery guards, apparently
bewildered, endeavored to suppress
the growing desire of many persons
to make known their approval of the
Massachusetts Senator's views with
hands and feet. In the confusion,
which spread to the floor, the crowds
hegan to move away, and a few offenders, whose conduct was noted by the
guards, were hustled out.

To Cohen's on Friday Remnant Day

This would be the answer that thousands of keen shoppers would render if the above question were propounded, among whom would be many women who are more noted for their good business judgment than for their inclination to follow sales. It is an exceedingly wise plan,

as you pass from item to item in the evening papers, relative to Friday attractions at Cohen's, to stop and

cut out the sections in which you are especially interested and then to bring these clippings with you on your shopping tour.

Encouraging **Bolshevism**

Everything that falsely encourages

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism.

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil.)

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

But it failed to mention that the agreed price was determined at the request of and in co-operation with the Food Administration!

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.
